LIVE DEMO · 5 MINUTES

A quiz everyone can join

Create a room. Share a link. Play together.

We’ll try it live, then look behind the host screen.

What the app does

A host runs a timed quiz while everyone plays in the same live room.

01	**Build**	Add questions, answer choices, and a timer.
02	**Invite**	Share the participant link. People join with a display name.
03	**Play**	Answer before time runs out; standings update between questions.

Your turn: join the quiz

Open this link on your phone

[PASTE LIVE PARTICIPANT LINK HERE]

Choose a display name · Wait for the host · Answer each question

We'll play 2–3 quick questions together

What the host sees

The host controls the room. Participants see the quiz.

HOST VIEW

- Live question and countdown
- Who has joined
- Full leaderboard

PLAYER VIEW

- Timed answer choices
- Correctness and points
- Top three and rank movement
- Final standings and answer review

The server keeps time and calculates scores.

That’s the loop

Create □ Share □ Play □ See results

A lightweight way to turn a group into a live quiz room.

Next: try a longer quiz, explore question setup, or test the host controls.

Thanks — what would you like to try?
